Bengaluru, KA | (91) [8000537300](tel:8000537300) | [Email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Summary

A Senior Software Engineer with **7.6+ years** of proven SDLC experience architecting, leading, developing and deploying several enterprise-grade applications, RESTful web projects & Windows services.

Innovative, detail-oriented, versatile professional & fast-learner with a problem-solving attitude and a passion for quality, performance, and engineering excellence.

Work Experience

UNISYS INDIA, Bengaluru, KA

Senior Engineer

04/2021 - PRESENT

Diagnostic Collection Suite - RESTful APIs | C# .NET Core | SPA.js | MariaDB

- Led design & development of automated information retrieval API, which improved average bug resolution time by **25%**.

Version Compliance Suite - Web Development | C# .NET Core | Razor Pages | MariaDB

- Led architecture & development, re-designing APIs & leveraging algorithmic improvements, improving reporting output by **10x** & performance by **15%**.
- Collaborated & worked cross-functionally with various teams (product management, testing & documentation teams) to drive product release.

AWS, Azure & VMware Cloud Adoption

- Drove roadmap planning for adopting & supporting VMware, AWS & Azure Cloud Platform (PaaS) collaborating with global & external leaders, ensuring **99.9%** uptime, which was the key factor in acquisition of **\$144 million** contract.

Mentor Experience

- Fostered a team-culture of *doing it right the first time* by emphasizing on careful design & analysis and setting high code standards by stringent reviews.
- Mentored associates by involving them in architectural discussions, research PoCs, and high-level bug analysis to incorporate *open, honest and inclusive approach*.

Systems Engineer

07/2017 - 03/2021

Soft Tape Manager 2.0 - RESTful APIs | C# .NET Framework | SPA.js | SQL Server | Distributed Systems

- Team leader for complete SDLC of 2nd release, responsible for adapting to distributed highly available, scalable, reliable and fault tolerant architecture, improving Suite revenue by **15% YoY**.
- Worked independently to improve GitLab DevOps process reducing build time **25%** by strategically restructuring pipeline stages. **[Exceed Performance Award]**

Associate Engineer

06/2016 - 06/2017

Mainframe Lifecycle Manager - Win32 APIs | C++ | Sockets

- Refactored socket communication in large codebase of enterprise scale business critical application to incorporate TLS, improving security.

Soft Tape Manager - RESTful APIs | C# .NET Framework | SPA.js | SQL Server

- Full stack development with tape emulation logic in backend incorporating SMB-CIFS for data-plane & RESTful API for control plane. **[Patent - US 15/933,662]**

Education

National Institute of Technology (NIT) Surat

-May 2016

Bachelor of Technology,
Computer Engineering

Skills

- C# .NET
- RESTful APIs
- Data Structures & Algorithms
- OOP Design Patterns
- HLD System Design
- Azure | AWS
- DevOps | CI/CD
- Agile | SCRUM
- JavaScript
- Razor Pages
- React.js

Cloud Certifications

- AZ-900 Azure
- AWS Cloud Practitioner

Hobbies

- Photography
- Travelling
- PC Games
- Basketball
- Table Tennis

Projects

BetterCoder.in - OAuth 2.0 | ASP .NET MVC | React.js | Azure SQL | Azure Web Apps (SaaS)

Developed website with practice roadmap of community curated and categorized LeetCode questions with solutions, to upskill problem solving skills in computer science by data-structures and algorithms.

OpenAI Voice Assistant - Python | Open AI GPT 3 API

Developed a minimalist interactive voice assistant which listens to the user voice commands, analyzes it and responds considering the context set by previous inputs as well, in the same language.
